

# I Got it (feat. Rick Ross)

Ashanti

Been intense since it all began  
Don't ask me about it cause I got it  
I work hard, yeah, I put work in  
He shining up and I drive it  
I ain't saying that I'm bragging, babe  
I just like to celebrate my accolades Push it to the limit like a big body Benz  
Push it to the limit, push it, push it to the limit Love saying how I feel about my life right now  
My hair so high and I can't come down  
So I'm high and I'm on it, on it  
He feeling my persona trying to push up on me  
I'm ready and willing and capable  
So come get it, what are you waiting for?  
Cause I'll let it hit it, now watch it blow  
Not finished with it, you see the smoke  
Oh, what I could give you is almost perfect, babe  
I ain't got no worries, look into my pain If you want it, I got it  
That body on me, I got it  
Then wake up, I got it  
Think heavily and I got it  
Got this body on lock and we can take it there  
Anything that you'd think off, I got it, got it, take it to the air  
I got it, don't know if you've got it  
Bottles on a few bodies, spending millions like you got it  
Cause you may never get another night like this  
So push it to the limit if you about to stack the limit She knowing I'm the hottest, knowing I'm the biggest  
Fuck being modest, I'm worth fifty million  
Bricks on, can sign me, killed Carolina  
Bulletproof coupes, silk-shirts designer  
She wanted cappuccino so I bought the Starbucks  
Two point four, that's off two notch road  
Nickles on the corner, pickles in the salad  
Pictures on the wall, chickens in the attic  
Choppers in the Phantom, bezel's on the watches  
Hate in your heart, really you the target  
They say I'm hard to kill, there's money on my head (Let's make it right tonight)  
Mastermind coming, still running from the fed If you want it, I got it  
That body on me, I got it  
Then wake up, I got it  
Think heavily and I got it

Got this body on lock and we can take it there  
Anything that you'd think off, I got it, got it, take it to the air  
I got it, don't know if you've got it  
Bottles on a few bodies, spending millions like you got it  
Cause you may never get another night like this  
So push it to the limit if you about to stack the limit If you on it like I'm on it then come on it, we gon' flaunt it  
I'mma stand on top off the globe  
I don't, I don't think you're ready, but this thing is dripping wet  
Tell me what you trying to do  
I could have you floating higher than what you got in that cup  
I could tear that thing up, I could tear that thing up  
Got you creeping up behind as you feeling up on mine  
I wouldn't make it up If you want it, I got it  
That body on me, I got it  
Then wake up, I got it  
Think heavily and I got it  
Got this body on lock and we can take it there  
Anything that you'd think off, I got it, got it, take it to the air  
I got it, don't know if you've got it  
Bottles on a few bodies, spending millions like you got it  
Cause you may never get another night like this  
So push it to the limit if you about to stack the limit
