

# Her Alone

## Amorphis

Only one can make me do my good deeds  
only one and the shadow of that one  
only one can make me do my evil deeds  
only one and the shadow of that one Her alone I will lend my ear to  
only her will I obey  
her alone I will always want to serve  
only her I will defy Only one can make me wage all my wars  
only one and the shadow of that one  
only one can make me do all my deeds  
only one and the shadow of that one My understanding under her advice  
birth of my knowing under her advice  
my desires I fulfill by revolting
