

# Dune Buggy (Terrence Hill & Bud Spencer) 256

## Oliver Onions

Come with me for fun in my buggy  
Come along let's go for the hell of it  
See the faces round they're all looking  
Wonder if they'd like to come for a ride.I'll bet you anything now she's with me  
There'll be no trouble  
troubles around  
Bet you'll never ever get awayNever ever get away  
dune buggy.  
See the world spin round in dune buggy  
String along let's scam far out off the ground  
Never felt so good she's a beautyBet she's a sight for your poor old eyes.I'll bet you anything  
boys on their bikes  
Will have some trouble  
following usBet they never ever catch us up  
Never ever catch us up dune buggy.I feel like a king in my buggy  
Just the crown is missin' but that's alright  
Come on people  
come on my buggy  
come and feel  
The power of a starry night.I'll bet you anything now she's with me  
I feel like a king  
I feel like a king in my buggy
