

Khashoggi's Ship

Queen

Who said that my party was all over
Huh huh I'm in pretty good shape
The best years of my life are like a supernova
Huh huh perpetual craze I said that
Everybody drank my wine - you get my drift
And then we took a holiday on Khashoggi's ship, well
We really had a good good time they was all so sexy
We was bad we was blitzed
All in all it was a pretty good trip This big bad sucker with a fist as big as your head
Wanted to get me I said go away
I said kiss my ass honey
He pulled out a gun wanted to arrest me
I said uh uh uh babe
Now listen no-one stops my party
No-one stops my party
No-one no-one no-one stops my party
Just like I said
We were phased we was pissed
Just having a total eclipse That's good This one's on me so let us do it just right
This here one party don't get started 'till midnight
