Dreams come true

Boa

I just thought, that you would like to know
That I would do anything
Just to make your dreams
Just to make your dreams come true
Well I just thought, that you would like to know
That I, I would climb the highest tree
Just to make your dreams
Just to make your dreams come true
I know, that it seems like
I am full of hot air
But my heart is in the right place
I swear, I swear
I just thought that you, would like to know
That I, I would do anything

Just to make your dreams
Just to make your dreams come true
Now I know that it seems like
I'm full of hot air
But my heart, my heart is in the right place
I swear, I swear
And I just thought that you, would like to know
That I, I'd do anything, anything
Just to make your dreams
Just to make your dreams come true
Just to make your dreams
Just to make your dreams come true
