

12:30

We Came As Romans

You only walk where you are led
Cunning devils creeping in
Their ideas are now your plans And now, my fever's breaking like a vow
It makes me so (sick, sick)
The things that you still believe are (sick, sick)
The way you've been so deceived is
Destroying the life you live
It makes me so You only walk when you are told
Waiting devils on your shoulders
Feel your hands are getting cold
And then, my fever's coming back again
It makes me so (sick, sick)
The things that you still believe are (sick, sick)
The way you've been so deceived is
Destroying the life you live
It makes me so Who takes over their life?
'Cause it's their voice out of your mouth while the real one hides
And with no thoughts left in you now
Let your hands get tied to someone else's god
Sacrifice we fought for the one
And it makes me so Sick, the things that you still believe are (sick, sick)
The way you've been so deceived is
Destroying the life you live
The things that you still believe are (sick, sick)
The way you've been so deceived is
Destroying the life you live
It makes me so sick You only walk where you are led
Feel your hands are getting cold
You only walk when you are told
My fevers coming back again
You only walk where you are led
My fever's coming back again
You only walk when you are told
And it makes me sick
