All Right

Double Vision

You feel the things are going wrong
And all the things that I knew are falling
Falling from the sky
And everything is never .... highIs it the time oh baby makes you wanna cry
Is it your mother's lover or something wrong with your life
Is it the baby that is sitting in my hall
Is there any way man you get satisfaction at allWell you can hold me now and I
Hold me right and I hold me baby
Squeeze me if you make it right
And I hold me now and I
Hold me fine and I hold me baby
It's all...
