Painted

Anggun

If I could find the time to speak
I'd try to find a thousands way
To prove you wrong
Falling on my faceI'm chasing all the lines of your skin
And all your pirouette mistakes
So dance, until you're brand new
Ignore the fight inside that scares youLook before you end it all
Look before you shut your eyes
For the last timeThere's no more room to go back down
Your picture trends in black and white
I will show you what it's likeLet them say all that they want
I'll wipe away your painted wings till your heroes come
If you doubt it'll look so new
Oh, then the venom in your eyes will control youWell, I hate pouring my heart out
When it's fading fast
And streaming down your legLook before you end it all
Look before you shut your eyes
For the last timeThere's no more room to go back down
Your picture trends in black and white
I will show you what it's likeShe whispers in his ear, don't hurt me
Don't forget me, don't hurt me
I'm still not properly togetherLook before you end it all
Look before you shut your eyes
For the last timeThere's no more room to go back down
Will you fight for me and not back down?
Your picture trends in black and white
I will show you what it's likeYour picture trends in black and white
I will show you what it's likeI can see you but you can't see me
I am right here and I'm waiting
I can see you but you can't see me
I am right here and I'm waitingI can see you but you can't see me
I am right here and I'm waiting
I can see you but you can't see me
I am right here and I'm waitingI can see you but you can't see me
I am right here and I'm waiting
I can see you but you can't see me
I am right here and I'm waitingI can see you but you can't see me
I am right here and I'm waiting
I can see you but you can't see me

I am right here and I'm waitingI can see you but you can't see me
I am right here and I'm waitingI am right here and I'm waiting
I am right here and I'm waiting
Goodnight
