## Anggun

If I could find the time to speak  
I'd try to find a thousands way  
To prove you wrong  
Falling on my face I'm chasing all the lines of your skin  
And all your pirouette mistakes  
So dance, until you're brand new  
Ignore the fight inside that scares you Look before you end it all  
Look before you shut your eyes  
For the last time There's no more room to go back down  
Your picture trends in black and white  
I will show you what it's like Let them say all that they want  
I'll wipe away your painted wings till your heroes come  
If you doubt it'll look so new  
Oh, then the venom in your eyes will control you Well, I hate pouring my heart out  
When it's fading fast  
And streaming down your leg Look before you end it all  
Look before you shut your eyes  
For the last time There's no more room to go back down  
Your picture trends in black and white  
I will show you what it's like She whispers in his ear, don't hurt me  
Don't forget me, don't hurt me  
I'm still not properly together Look before you end it all  
Look before you shut your eyes  
For the last time There's no more room to go back down  
Will you fight for me and not back down?  
Your picture trends in black and white  
I will show you what it's like Your picture trends in black and white  
I will show you what it's like I can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waiting I can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waiting I can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me  
I am right here and I'm waiting I can see you but you can't see me  
I am right here and I'm waiting  
I can see you but you can't see me

I am right here and I'm waiting I can see you but you can't see me  
I am right here and I'm waiting I am right here and I'm waiting  
I am right here and I'm waiting  
Goodnight
