Someday

Eric Carmen

Someday when I'm cool
She's gonna think about how
She used to treat me so cruel
On that someday
Man, she'll crawl back to meSomeday when I'm gone
She's gonna see
How it feels to be all alone

On that someday

Man, she'll crawl back to meSo she said goodbye again
I'm just waitin' for the time to come
When she'll get down on her knees

Peggin' now derlin' placed two been tryin' every trick I kno

Beggin', now darlin', pleaseI've been tryin' every trick I know But she still walks in

Makes me feel so grim

Seein' her is gettin' harder every daySomeday when I'm cool She's gonna think about how She used to treat me so cruel

On that someday

Man, she'll crawl back to meMan, she'll crawl back to me
Man, she'll crawl back to me
Someday
Man, she'll crawl back to me
