

# Symptoms of Loneliness and Heartache

[Lisa Stansfield](#)

You need money like you've got no soul  
Can't love ever fill that hole  
You talk fast but your heart is slow  
Can't love ever make you whole  
Your laughing at my words right now  
But you'll end up a tired and lonely man  
You tell me love is nothing but wasted time  
Well I'm telling you it's the only way of life  
I can't see enjoyment  
I don't see compassion  
I see symptoms of loneliness and heartache  
I don't see emotion or quality of life  
Just symptoms of loneliness and heartache  
I can't figure out the love we share  
I can't see that there's any there at all  
You buy me flowers and fancy things  
But I need your heart above everything  
Your laughing at my words right now  
But you'll end up a tired and lonely man  
You tell me love is nothing but wasted time  
Well I'm telling you it's the only way of life  
I can't see enjoyment  
I don't see compassion  
I see symptoms of loneliness and heartache  
I don't see emotion or quality of life  
Just symptoms of loneliness and heartache  
I can't see enjoyment  
I don't see compassion  
I see symptoms of loneliness and heartache  
I don't see emotion or quality of life  
Just symptoms of loneliness and heartache  
Your laughing at my words right now  
But you'll end up a tired and lonely man  
You tell me love is nothing but wasted time  
Well I'm telling you it's the only way of life  
I can't see enjoyment  
I don't see compassion  
I see symptoms of loneliness and heartache  
I don't see emotion or quality of life  
Just symptoms of loneliness and heartache
