Killing Me

Bodebrixen

If i break down what would it take for you to see
That i have been left empty inside
From the scars that i have made
Cause you don't know what i've been through
All of the time that i spent waiting for you and
I have locked it inside and now it's killing me
How would you feel if i told you things would never be the same
How would you feel if told you this would never go away
What would it take for you to understand
You don't know me
Would it take for you to realize that you don't know what i've been through
All of the time that i spent waiting for you
I have locked it inside and now it's killing me
How would you feel if i told you things would never be the same

How would you feel if i told you this would never go away
How would you feel if i told you it's inside of me
How would you feel if i told you this was killing me
I know we'll never escape from this
Running as fast as we can
But i know we'll never escape from this
Running as fast as we can to get away
How would you feel if i told you things would never be the same
How would you feel if i told you this would never go away
How would you feel if i told you it's inside of me
How would you feel if i told you this was killing me
This is killing me
Now this is killing me
I said its killing me
