

# Love Is Making Its Way Back Home

Josh Ritter

Dot paths the moonly road  
When time the crunch of snow  
I wonder when your smile show  
'Cause love it's making its way back home  
Love is making its way back home  
Love is making its way back home  
Love is making its cold really way back home

And when it's finally  
We won't ask for  
It won't say and we won't care  
Where it's traveling in the between  
Love is making its way back home  
Love is making its way back home  
Love is making its cold way back home  
To you and me

So keep on, keep on, keep on  
Leaving if you can, you can leave it long  
Hold on, hold on, hold on  
Just because it's gone, don't mean it's gone for long

All the joy you heard it's true  
Love it's patient and love can burn  
And it won't ask to be excused  
And it won't ask if it can please return

Summer tell you its myth  
Try to say you don't resist  
Well shake the hands and  
When it's finding in

Love is making its way back home  
Love is making its way back home  
Love is making its cold way back home  
Love is making its way back home  
Love is making its way back home  
Love is making its cold way back home  
To you and me

Keep on, keep on, keep on, keep  
Keep on, keep on, keep on, keep on  
Keep on, keep on, keep on, keep on  
Hold on, hold on, hold on
