

# I Am What I Am

## Spiritualized

I am what I am  
I am the tide that pulls the moon.  
I am the planet that lights the sun.  
I am the way that leads to the stars.  
I am the road that drives the cars.  
I am the rocket ship that blasts the bit  
that takes you to the stars.  
I am what I am. Got it in my hand.  
Hear what I say. See what I am.  
You understand?  
I am the song that writes the mind.  
I am the man who don't wait for time.  
I am the heart that feeds your kiss.  
I am the faith that gets yr soul.  
I am the pound of flesh that signifies  
the sum of all yr told.  
I am what I am. Got it in my hand.  
Hear what I say. See what I am.  
You understand?  
I am the heart that calls you home.  
I am the grave that marks the yr stone.  
I'm misunderstood do you understand?  
Like the sea holds back the land.  
I'm the mishap and coincidence  
that came out as you planned.  
I am what I am. Got it in my hand.  
Hear what I say. See what I am.  
You understand?
