Call Me

Pretty Ricky

Girl, you make me say, oh
Girl, I make you say, oh
You make me say, oh
Girl, you make me say, oh
Girl, I make you say, oh
You make me say, oh
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
Call me, you can call me any time, any day
'Cuz I like my women feisty baby
I'ma take you on a fast ride of your lifetime
That's gonna drive you crazy
You dealin' with ducks and tell you the truth
They can't come close to me
I'm a blue star baby girl and I'm
Built with plenty of energy
But when it comes to sex I'm a real woman scholar
Just hit me on my sidekick you know ya boy gon' holla
Got you reminiscing his love ain't true, his love is fiction
I'm tired of sittin' gimme a call, I'll be there in a minute
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
When you home alone just hit my phone when you lonely girl
You so beautiful, I made you my tenderoni girl
And I like my girls with meat and not just some little boney girl
And I do like boney girls but long as they not phoney girls
Call me up when you turn off your lights
Might show you a couple o' thangs that you like
And you ain't never gotta dial my number twice
'Cuz I'll be there quicker than some minute made rice
Call me, if you need some lovin' for the night

Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
Yeah, baby blue, whoa
You called me I'm headed up your block trynna hit your spot
Have that Victoria Secret on when you hear that knock
I see you peepin' out yo window when you hear my ride
Open yo door and let me come inside, come inside
We can role play, I'll be a dirty cop headin' up ya block makin' it hot
Locked you up in some handcuffs throw away the key to the lock
I'm 24-7 like 7-11, no rebellin' stoppin' when I'm hearin' you yellin'
So, call me, page me, I'm on the way dependin' on ya attitude baby
Girl, you make me say, oh
Girl, I make you say, oh
You make me say, oh
Girl, you make me say, oh
Girl, I make you say, oh
You make me say, oh
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me, when it's time to turn off all the lights
Call me, if you need some lovin' for the night
Call me, you ain't gotta dial the number twice
Call me, baby girl, I lick and don't bite
Call me
