

# Here With Me

## Plumb

In my head I have dreams  
I have visions of many things  
Questions longings in my mind  
Pictures fill my head  
I feel so trapped instead but  
Trapped doesn't seem so bad  
'Cause You are here  
It doesn't mean anything  
Without You here with me  
And I can try to justify  
But I still need You here with me  
In my heart I had hope  
Built on dreams I'll never know  
Answers to love left behind  
Visions filled my head  
I felt so trapped instead but  
Trapped didn't seem so bad  
'Cause you were near  
It doesn't mean anything  
Without You here with me  
And I can try to justify  
But I still need You here with me  
I can't do anything without You  
You give me strength to do anything  
And I can't be everything I try to  
You saved me from the everything, I couldn't be  
It doesn't mean anything  
Without You here with me  
And I can try to justify  
But I still need You here with me  
It doesn't mean anything  
Without You here with me  
'Cause after all is said and done  
I still need You here with me  
Need You here with me  
I need You here with me
