# I-35 Reasons

## Kenna Danielle

She went south bound
Down the San Marcos exit thinkin got it figured out now
While youâ€™re headed that direction you jump on that interstate because you canâ€™t wait to get on the road with he
You probably wouldnâ€™t be worth the drive if you couldnâ€™t go 75
That traffic wouldâ€™ve moved a little slower you probably wouldnâ€™t never even never got to know her
That pave straight away makes it easy boy you wish it was a dirt road believe me
Those white lines stretched just like the truth
And now I got I-35 reasons for leavin you

It would be shut down
If I had it my way and you would have to turn around
Cause your way is the highway but would you go the extra mile to see her smile down that open road
You probably wouldnâ€™t be worth the drive if you couldnâ€™t go 75
That traffic wouldâ€™ve moved a little slower you probably wouldnâ€™t never even never got to know her
That pave straight away makes it easy boy you wish it was a dirt road believe me
Those white lines stretched just like the truth
And now I got I-35 reasons for leavin you

You can drive into the sun but Iâ€™m the one whoâ€™s leavin you behind
You probably wouldnâ€™t be worth the drive if you couldnâ€™t go 75
But That traffic wouldâ€™ve moved a little slower you probably wouldnâ€™t never even never got to know her
That pave straight away makes it easy boy you wish it was a dirt road believe me
Those white lines stretched just like the truth
And now I got I-35 reasons for leavin you

Yeah I got I-35 reasons for leavin you
