

# I Just Walked Away

Tony Joe White

I walked out of your apartment  
I left you sleeping on your bed  
I won't have to look back over my shoulder  
But I did not turn my head We had a good arrangement, yes, we did  
But now I felt the need to move  
But things had not worked out like I planned  
'Cause I've been come attached to you There was no way to tell you, baby  
All the things I had to say  
So I just walked away And mistin' rain had started falling  
The kind that chills you to the bone  
And I had a soulful feeling  
But it did not stay too long Oh, I knew I had it coming  
But I believe it'd come and gone  
And this lonesome feeling inside me, oh Lord  
Makes me know I stayed too long There was no way to tell you, baby  
All the things I wanted to say  
So I just walked away I left you baby, uhu, I hated to go  
But I just could not explain  
The way I felt about it  
Uhu baby, I left you I hated to leave you  
Sleeping on your bed  
When you needed me most  
Uh, I left you A mistin' rain was falling  
The kind that chills you  
When you need somebody  
To lay beside you And there's a time  
That I picked to leave you and I hated to go  
But it just couldn't tell you  
The way I felt about the situation Uhu baby, I want it so bad to find some way  
Of just coming out and telling you  
That I did not want to love you so much  
Oh, but I just couldn't, so I just walked away
