I'll Get Along

Ann Peebles

Oh yeah, I'll get alongThe hill is hard to climb
The road get rough and rugged
Make me wish that I was back in my buggy
But I get along, I get along
I get along, I get along, you know I will
'Cause if a dog in the street
Can find himself a bone,
I get along, yeah I get alongNow lovin' you baby made me a poor chooser
You can bet your life this time
I wont be no two time loser
I get along, I get along
I get along, I get along, you know I will
'Cause if a dog in the street
Can find hiself a bone,
I get along, I get along, yeahI'll get along, get along without you baby
Yeah, I'll get along, get along without you babySaid you want to leave
Said you want to be free
And do whatever you please
It matters less to me
I get along, I get along
I get along, I get along, yes I will
'Cause if a dog in the street
Can find hiself a bone,
I get along, I get along, babyI get along, without you baby
I get along, he'll get hard to climb sometime
I get along
