

# You Do All Things Well

## Tenth Avenue North

Father in heaven, hear this simple prayer  
Get us through the night and fill up our despair  
Pain has come, taught us to fear  
We're gonna need some grace, God  
To fill the air Cause in the twilight  
We need eyes to see  
How You're working beauty  
Even out of ugly things You do all things  
You do all things  
You do all things well  
You do all things  
You do all things  
You do all things well  
Yeah Father among us  
Keep us in your arms  
There's evil all around us  
And we're trying to hold on Just to know  
That You're still good  
That Your love is alive  
Oh, let's cling to Jesus  
And sing tonight You do all things  
You do all things  
You do all things well  
You do all things  
You do all things  
You do all things well You break me to bind me  
You hurt me, lord, to heal me  
You cut me to touch me  
You died to revive me  
You break me to bind me  
You hurt me, lord, to heal me  
You cut me to touch me  
You died to revive me Oh, oh, oh, oh  
Oh, oh, oh, oh You do all things  
You do all things  
You do all things well  
You do all things  
You do all things  
You do all things well
