Goodbye, Goodnight, For Good

Alesana

Jealousy rears its ugly head
I won't forget the things you said before
Goodbye, goodnight, for good
Remember my face when you feel the painHelp me to sleep
Help me to sleepNow I'll fight with my eyes closed
For the things I've let go, sweet breath escapes
Choke on the lies that were your last goodbye
Hear my voice as you sleep

Choke on the lies that were your last goodbyeHelps me to sleep without your memory
And my shattered dreams collect dust on what used to be a lie
It haunts me no more and now you're gone, you've left me all alone
I wasn't wrong to feel this way inside
So goodbye, goodnight for goodNow I'll fight with my eyes closed
For the things I've let go, sweet breath escapes
Choke on the lies that were your last goodbye

Hear my voice as you sleep

Choke on the lies that were your lastI find pleasure in the taste of your decay I anxiously watch you fade awayI can't explain what's happening inside of me

I refuse to fight you anymore

All I know is I have to make sure

Make sure you never wake up againSoft flesh gives way to trembling hand

Beautiful eyes are sewn shut

Searing thread suffocates the light

Beautiful, beautiful
