Tinsel Town

Jan Berry

Ever you are
Ever you are
Ever you are
Ever you are
Ah...
Check your mind, you're free to follow
All the friends that you can borrow
Everybody's so much fun
To pay for all the lunches done
Always trying to beat the rest
You're always trying to be
Whatever you need
All the things you long for and you need to be
They can be found
All in tinsel town, all in tinsel town
All in tinsel town, all in tinsel town
Therapy can be your saviour
People take your strange behaviour
Be careful with your mind till you know the deal
Be careful with your life 'cause it's gonna be
Whatever you want
All the things you long for and the things you don't
They can be found
All in tinsel town
All in tinsel town
All in tinsel town
All in tinsel town
Whatever you want
All the things you long for and the things you don't

They come around
All in tinsel town
All in tinsel town
All in tinsel town
All in tinsel town
Always trying to be the best, you're
Always trying to beat the rest, you're
Always trying to be the best, you're
Always trying to beat the rest, you're

Always trying to be the best, you're
Only trying to beat the rest, you're
Always trying to be the best, you're
Only trying to beat the rest, you're
Whatever you need
All the things you long for and you need to be
They can be found
Whatever you want
All the things you long for and the things you don't
They come around
All in tinsel town
All in tinsel town
All in tinsel town
All in tinsel town
Whatever you want
All in tinsel town, all in Tinsel Town
Whatever you need
All in tinsel town, all in Tinsel Town...
Whatever you want
Tinsel town
Tinsel town
Whatever you want
Tinsel town
Tinsel town
