## NOFX

One source of energy  
The ultimate discovery  
Electric blue for me  
Never more to be freeElectricity  
Nuclear and H.E.P.  
Carbon fuels from the sea  
Wasted electricityHey hey hey hey  
Hey hey hey hey  
NoOne source of energy  
Electricity  
All we need to live today  
A gift for man to throw awayThe chance has nearly gone  
The alternative is one  
Final source of energy  
Solar electricityHey hey hey hey  
Hey hey hey heyElectricity
