Nothing to Fear

EchoVolt

What freezes love in your eyes?
What steals the force from your life?
What holds us ransom tonight?
What stops you seeing yourself?Only fear can stand on potential's handsThis is the greatest day of your life
If you make it and the old spells you know
They can be broken, nothing to fear
Nothing to fearThe greatest faults can be beaten
The grandest problems defeated
Impossible choices completed
Infinite pain will be treatedOnly fear can stand on potential's handsThis is the greatest day of your life
And we made it and the old spells you know
'Cause they can be broken, nothing to fear
Nothing to fearThis is the greatest day of your life
And we've made it, break the old spells
Oh, let them be broken, nothing to fear
No, nothing to fearThis is the greatest day, break the old spells
And throw them away, break the old spells
Don't ya know they can be broken, no, nothing to fear
Nothing to fear, nothing to fear, nothing to fear
