Inside

Jon B.

Whatcha cookin', baby? Smells so good, lady
Girl, you got me cravin' for your love
Baby, you are crazy, it never ceases to amaze me
What I'm about to be tastin'
But I'mma take my time, girl tonightYour body gets warm
With freaky conversations, no touchin' just talk
Thinkin' about the things we're gonna doTonight we'll make it rain
Down inside when I kiss you goodnight
We can go for a long timePromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)
I like it when it's all the way insidePromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)
I like it when it's all the way insideBaby, put your glass down, let me kiss all around
I like the way you make the sound
When I touch the spot, baby
Over to the bedroom, only light is the moon
The small of your back is shiny too
You're so sexy when you sweat boo'Cuz your body gets warm
With freaky conversations, no touchin' just talk
Thinkin' about the things we're gonna do
What I'm 'bout to do in a couple of seconds to you, babeTonight we'll make it rain
Down inside when I kiss you goodnight
We can go for a long time
All the time I'm tryna gonna long timePromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)
I like it when it's all the way insidePromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)
I like it when it's all the way insideFeels so amazin'
That's why I'm pacin' myself with you
'Cuz you are beautiful, yeah
When we come together
We will see the flight to Heaven
Oh yeah, oh yeahPromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)

I like it when it's all the way insidePromise you to pace, myself not to waste
I like to see your face, this is the place
(I like it when it's all the way inside)
I like it when it's all the way insideCome on, come on
I like it when it's all the way inside
I like it when it's all the way inside
