

Sleepless

[Jessica Lea Mayfield](#)

I'm almost too lonely to speak
My eyes dart around when you're talking to me
I can't seem to make myself not think
About the past and how you are now
I think I've been left alone long enough to do something insane
My friends they worry I'm wasting away
I wish they'd not say a thing
'cause my momma said that no one can stop me
My momma said that no one can stop me
My momma said that no one can stop me
I won't let you stand in my way
Your actions they push me away
Into the dark where sleepless I lay
But I'm not alone I have company
An internal war that won't let me be
I think that I've been left alone long enough to do something insane
My friends they worry I'm wasting away
I wish they'd not say a thing
'cause my momma said that no one can stop me
my momma said that no one can stop me
my momma said that no one can stop me
I won't let you stand in my way
