Grippin'

Mardi

Verse 1

Abusing
Baby I've been boozing
Yeah, you know I'm using
Tripping while i'm cruising
What you doing
How much is you moving
Do you really do this
Tripping in the passenger
Baby I'm feeling good
Baby you know that I'm in the mood
Feeling the *blank* shows at the festival
I cannot do nothing but the rest of all
She had the flow thats higher than the crowed
Nigga's just vanish right into the clouds
Shit i just throw myself into the *blank*
Shit I just bring myself out of the crowed
You feeling me now

Hook
Where you trying go
You ride up
When I see that ass
I'm gripping tighter
When she trying to smoke
We gon light up
Keep me your attention
They been trying to strack us
This world is crazy
Our planets are rejoicing
Yeah its time to face it
Together we amazing
You made me loose my focus
You said you feel the motion
You made me loose my focus
You said you feel the motion

Verse 2

She hopping a ride
Hopping a ride
Time to go fast
Rolling and Rolling
Bump on the gas
Shit is incredible
Spinning like that
Shit in the gas?
And I'm distracted
I hope we don't go too fast
Put something on mind
Yeah I'm trying to smash
Fucking my lungs
Of course
walking the doors
Packing the bong
Roll a few more
Everyone drunk
Was showing me love
Head to the club
And fucking young
Feeling it strong
Feeling it strong
Yeah I'm still tripping
Only drank one
Don't tell my mother
she still over something
I drop another, then fade to the sun
Is you trying to come?

Hook

Where you trying go?
You ride up
When I see that ass
I'm gripping tighter
When she trying to smoke
We gon light up
Keep me your attention
They been trying to strack us
This world is crazy
Our planets are rejoicing
Yeah its time to face it

Together we amazing
You made me loose my focus
You said you feel the motion
You made me loose my focus
You said you feel the motion

Bridge

I know you feeling the motion
You fell the motion
Know you feel the fucking motion
Do you, Do you feel the motion
Tell me that I'm lying baby
I know you feel the motion (Goddamn)
You said you feel the motion (C'mon)
And you dont wanna
Grip it
Yeah yeah
You feel the motion
Tell me one time
Do you, Do you feel the motion
Tell me that i'm lying baby
I know you feel the motion (Yeah)
You said you feel the motion (Yeah)
Cause you the one i'm gripping
The one I'm grippin'
Yeah I'm grippin' your attention
The one I'm grippin'
Never loosing my attention
So why you trippin'
Why you question my attentions
The one I'm grippin'
Never loosing my attention

Hook

Where you trying go?
You ride up
When I see that ass
I'm gripping tighter
When she trying to smoke
We gon light up
Keep me your attention
They been trying to strack us
This world is crazy

Our planets are rejoicing
Yeah its time to face it
Together we amazing
You made me loose my focus
You said you feel the motion
You made me loose my focus
You said you feel the motion
