

# Dance With Me Now Darling

## Hem

Dance with me, now darlin', make me late  
I've been hangin' 'round this barroom and I can wait  
I can wait, now darlin', don't you know?  
Dance with me, now darlin', sweet and slow I've been here in the corner, playin' it cool  
But I could hang off your shoulder like a fool  
Like a fool, now darlin', all night long  
Dance with me, now darlin', to this song Take me home in a big car, drive it slow  
And if we turned off the highway, who would know  
Who would know in the morning's yellow light  
Where these two lost lovers were last night Dance with me, now darlin', make me late  
I've been hangin' 'round this barroom, and I can wait  
I can wait, now darlin', don't you know?  
Dance with me, now darlin', sweet and slow  
Dance with me, now darlin', sweet and slow
