Seduction Nocturne

Sacrilege

[Music: Bergholtz, Dinsdale, Svensson]
[Music: Dinsdale, Svensson]Rise, angel of night, in glamorous pride
and spread thy polluted wings
Destroy the fundamental conditions
for our existence beneath contemptFeed me with thy blissful tears,
seduce me in nocturnal rapture
Oh, mannequin of darkness you are my immortalPenetration in festering flesh so pale
Accompanied by orgiastic screams of ail
Together as one we deceiver the light
a sulphurous triumph for our despiteThe souls that were lost will be missed by noneUnited in an act of endless pleasure
a sinful play of perversity
we enter the secret lotusland
where light's forever bannedPenetration in festering flesh so pale
Accompanied by orgiastic screams of ail
Together as one we deceiver the light
a sulphurous triumph for our despite
