

Come On

Revolution Mother

B2K Omarion, Lil Fizz, Raz B, J Boog

Come on, come on

Leave em alone

Omarion, first verse

Peek-a-boo, little fine lady I see you

Little man knows what he wanna do

After school, you know that it's okay

Truth or dare, I won't play

Baby if you're scared

Sweetheart let him go so that I will know

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Hide and seek if I come catch you

Would you be with me baby

Can you feel my flow

If not, you can go baby, that's fa sho

I'll satisfy

If you give me the time and recognize

Sweetheart let him go, so that I will know

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Come on, I know what you want

No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Come on, I know what you want
No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Omarion, J Boog, Raz B, Lil Fizz
You feel me
B2K on the track, baby
Blowin' up
Here we come
Year 2000
Dance, dance, dance, dance
Dance, dance, dance, dance
Get him out your life
Baby don't be a fool
Five minutes with me
No other guy will take my place
Don't be dumb
He's playin' in your face
Get with me, baby
Don't leave me
No need to front I know what you want baby
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Ooh I'm alone
Leave him for me
What a pretty little thing like you
Gonna do with a fool like him
Leave him for me
Girl I want you, girl
Come on, wait a minute
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
