Mother Earth

Freedom Call

A destiny's child
Aeons away from the sun
Island of life
Out of the dust she has comeBe aware of the dream we live in
Realize that the chance is given
My life, my love
In the hand of destinyMother Earth, voice of universe
Mother Earth, oasis of life
Mother Earth, the flame of universe
Mother Earth, your tears of pain rain down on the worldShine in the night
A diamond in blue, she's the one
Symbol of light
A reign of the fools begunBe aware of the world we're sharing
Realize that the times are changing
My life, my love
You can seal my destinyMother Earth, voice of universe
Mother Earth, oasis of life
Mother Earth, the flame of universe
Mother Earth, your tears of pain rain down on the worldOh Mother Earth
Highest time that the world is learning
Keep in mind that the big wheel's turning
My life, my love
You're the only one for meMother Earth, voice of universe
Mother Earth, oasis of life
Mother Earth, the flame of universe
Mother Earth, your tears of pain rain down on the worldMother Earth, voice of universe
Mother Earth, oasis of life
Mother Earth, the flame of universe
Mother Earth, your tears of pain rain down on the world
