

# A Bigger Mood

## American Hi-Fi

I need a bigger mood  
To block out the sun  
I don't wanna see what I've become  
And you could fight your way  
Give back what you really want  
It's nothing special anyway Yeah, you're always in my way  
I'm falling faster everyday  
Yeah, you're always in my way  
I gotta spit you out  
You bring me down  
Everything just crashes to the ground  
'Cause you were always in my way I can feel a brake  
A bruise from another day  
It's hard to say just what I feel  
It all seems broken now  
When I'm stuck on the in between  
Staring at something out of reach Yeah, you're always in my way  
I'm falling faster everyday  
Yeah, you're always in my way  
I gotta spit you out  
You bring me down  
Everything just crashes to the ground  
'Cause you were always in my way, go
