

# Night Moves (Original mix) â™¢ Graal Radio

## Roosevelt

The night moves keeping me up  
I don't want it no more  
And that's where your heart goes every night  
The night moves keeping me up  
I don't want it no more  
And that's where your heart goes every night  
The night moves keeping me up  
I don't want it no more  
And that's where your heart goes every night  
The night moves keeping me up  
I don't want it no more  
Until your heart comes every night  
The night moves  
There's no reason to hide  
You know the night moves on and on  
Takes us out of the light  
You know the night moves on and on  
There's no reason to hide  
You know the night moves on and on  
Takes us out of the light  
You know the night moves on and on
