

Osiris

Dark Fortress

From the shadows
From the pit
From the chasm
I call to theeExiled from Eden
Left for dead
A spurred phantasm
In barren reverieOsiris
Drowned in lies
Betrayed by blood
In scorned baptized
I am one with you
In vengeance and despair
Redeem me from this torment
This empty prayerThese hateful blades
Rusting inside of meFor all the rape and anguish
We suffer night by night
This cruel mirage can only languish
For all this plight is but illusionThe veil shall be torn
Lust shall resurrect us
A god shall be born
From beyond me shall bring retributionI adjure all pain
Commit myself to heresy
Quit waiting for the angels
To come and make amends
I hail all death
Reject all tortured saints philosophy
Every wretched living thing knows this must endFrom the shadows
From the pit
From the chasm
