# Don't Ask Her That

## Shaggy

You hear me, I an' I mek you know say
Certain things you just don't wanna know
Let it go, let it go, you don't wanna know
Let it go
How many men did you have? Don't ask her that
Can you count on one hand? Don't ask her that
Am I like your last man? Don't ask her that
We on a need to know basis and you don't need to know
Back in the day were you a freak, don't ask her that
In the past hey did you creep? Don't ask her that
How you so good between the sheets? Don't ask her that
We on a need to know basis and you don't need to know
Go 'head do what you came to do
Wanna know all the things that I used to do
When I keep it on the real you get an attitude
You want the truth, you can't handle the truth
Go 'head do what you came to do
You want to follow my past well it's up to you
When I keep it on the real don't get an attitude
You want the truth, you can't handle the truth
Don't ask 'bout the past you should let some things be
No need to concern 'bout the man she has seen
You ask how many she tell you just three
Knowing that your ego can't handle thirteen
It's best not to ask 'bout her previous guys
Unless you are willin' to handle her lies
Especially when she's discussin' their size
You just might be in for a bigger surprise
You're diggin' for info that you really don't wanna hear
You're stirrin' the feelings that you know you can't really bare
So what if the answers you can prevent your biggest fear
Now ask yourself are you really prepared?
Go 'head do what you came to do
Wanna know all the things that I used to do
When I keep it on the real you get an attitude
You want the truth, you can't handle the truth
Go 'head do what you came to do
You want to follow my past well it's up to you
When I keep it on the real don't get an attitude

You want the truth, you can't handle the truth
An expert, it seems when it comes to foreplay
The many positions she did made your day
I know you must wonder how she got that way

Don't ask you might not wanna hear what she'll say
Just look in the past and the ways you had fun
Would you wanna know when the things you had done
She might lose her cool and be tempted to run
So what heave you learned when it's all said and done
You're diggin' for info that you really don't wanna hear
You're stirrin' the feelings that you know you can't really bare
So what if the answers you can prevent your biggest fear
Now ask yourself are you really prepared?
Go 'head do what you came to do
Wanna know all the things that I used to do
When I keep it on the real you get an attitude
You want the truth, you can't handle the truth
Go 'head do what you came to do
You want to follow my past well it's up to you
When I keep it on the real don't get an attitude
You want the truth, you can't handle the truth
How many men did you have? Don't ask her that
Can you count on one hand? Don't ask her that
Am I like your last man? Don't ask her that
We on a need to know basis and you don't need to know
Back in the day were you a freak, don't ask her that
In the past hey did you creep? Don't ask her that
How you so good between the sheets? Don't ask her that
We on a need to know basis and you don't need to know
Go 'head do what you came to do
Wanna know all the things that I used to do
When I keep it on the real you get an attitude
You want the truth, you can't handle the truth
Go 'head do what you came to do
You want to follow my past well it's up to you
When I keep it on the real don't get an attitude
You want the truth, you can't handle the truth
How many men did you have? Don't ask her that
Can you count on one hand? Don't ask her that
Am I like your last man? Don't ask her that
We on a need to know basis and you don't need to know
Back in the day were you a freak, don't ask her that
In the past hey did you creep? Don't ask her that
How you so good between the sheets? Don't ask her that

We on a need to know basis and you don't need to know
