

# Rear View Mirror

## Mya

I'm packing all the bags, and hell about it here

I don't know this way I'm going

But it's far away from here

Said I'm filling up my tank, adjust my radio

Got my dollars in my pocket, the wind blows

Now go, just go, I'm ready, I'm ready

In my rear view mirror I don't see nothing once more

Everything's much clearer and I push that metal into the floor

I gotta go, go, oho, oho, uh

I gotta go, go, oho, oho, uh

Not a care in the world, in my ride

And even though I'm all alone

Feels like I'm flowing on cloud night

See I'm stepping on the gas and gonna press rewind

All the things that held me back I'm leaving them all behind

I'm sure I want more, I'm ready, I'm looking, looking in the

In my rear view mirror I don't see nothing once more

Everything's much clearer and I push that metal into the floor

I'm ready to go

I gotta go, go, oho, oho, uh

I gotta go, go, oho, oho, uh

The woman know what she want

Think I tell what the

Think I tell you people

She's a shining star, looking at the rearview mirror in the car

And tell you from start

But they not take in, move stop

Never look down the road never played her part

Says she look another one

She wants to get everything sort out

She's leaving all you heart broke

And giving it to the beat boy steppin'

Pipping, ready when them girls them

In my rear view mirror I don't see nothing once more

Everything's much clearer and I push that metal into the floor

I gotta go, go, oho, oho, uh  
I gotta go, go, oho, oho, uh
