

# All the Way Under the Hill

**Daniel Romano**

You always said I'd never make it  
With your cold bitter heart  
You would knock me down to nothing  
And tear me apart  
You wouldn't know it  
Cus' you're gone now  
But I found the will  
To make it all the way under the hill No more hurtin' or cryin'  
Those days are gone  
I finally found deep inside me  
The way to move on  
And I hope that I left you  
With a bad guilty chill  
Now that I'm all the way under the hill  
You must admit it  
Now that I made it  
It's much harder to sleep  
All my hopes and my dreams  
That you once threw away  
But on sundays you don't visit  
And you never will  
And I'm all the way under the hill  
I made it all the way under the hill
