

# You Make Me Smile

Jennifer Love Hewitt

You make me smile  
Even the times I'm trying to be serious  
You are possessing the quality mysterious  
A special style, you, you, you, you make me smile  
You make me smile  
Even the times our future's looking gloomier  
Come through the door and then the room looks roomier  
And for a while, you, you, you, you make me smile  
(Together forever my [Incomprehensible] forever  
no one makes me feel like you do)  
You make me smile  
(Moments together I know it's forever, 'cause nobody does what you do)  
That's how I feel, boy, whenever I'm with you  
You make me smile  
We never thinking that it could be so possible  
Now on the other hand, it's finally probable  
I'll stay a while, 'cause you, you, you, you make me smile  
(Together forever my [Incomprehensible] forever  
no one makes me feel like you do)  
You make me smile  
(Moments together I know it's forever, 'cause nobody does what you do)  
That's how I feel, boy, whenever I'm with you  
(Together forever my [Incomprehensible] forever  
no one makes me feel like you do)  
You make me smile  
(Moments together I know it's forever, 'cause nobody does what you do)  
That's what you do to me, baby  
All the things I seem to feel uptight about  
Ain't so devastating after all  
This must be what life is all about  
Standing tall each time you take a fall  
You, you, you make me smile  
You, you, you make me smile  
That's how I feel, boy, whenever I'm with you  
(Together forever my [Incomprehensible] forever  
no one makes me feel like you do)  
You make me smile  
(Moments together I know it's forever, 'cause nobody does what you do)  
That's what you do to me, baby

(Together forever my [Incomprehensible] forever  
no one makes me feel like you do)  
You make me smile  
(Moments together I know it's forever, 'cause nobody does what you do)  
That's how I feel, boy, whenever I'm with you
