

Black Camera

Wintersleep

They don't know you
Maybe they do
They don't have the evidence
They ain't got the proofBlack camera
Black cameraThey never been through
What you been through
Bloody brains in a body bag
Is it really you?Black camera
Black camera
Black camera
Black cameraIt's your picture
It's your signature
The curse you suffer
It's your file number
It's your name boy
Don't act like it isn't your face
It's your name boy
Don't act like it isn't your faceYou didn't want to
Maybe it's true
Maybe it's irrelevant
Whether you really doBlack camera
Black camera
Black camera
Black cameraIt's your picture
It's your signature
The curse you suffer
It's your file number
It's your name boy
Don't act like it isn't your face
It's your name boy
Don't act like you could ever eraseBlack camera
Black camera
Black camera
Black cameraIt's your signature
The curse you suffer
It's your file number
It's your name boy
Don't act like it isn't your face
It's your name boy

Don't act like you could ever erase
