

# Wife Soup

## Umphey's McGee

Advisory - the following lyrics contain explicit language:

Maybe it could wait another day  
For as it were I'm better off along without my feet  
If laziness could be a middle name  
Initial me so I could wander off and fall asleep  
We've all recovered though still to stand  
With no excuses for us to tell  
So please allow some time to pass  
We've peeled our spirits into a hole  
With no provisions left to share  
Yet still our sleeves are weighted down  
You wouldn't even believe your eyes, it's all your circus now  
You couldn't even believe your eyes, it's all your circus now  
You wouldn't even believe your eyes, it's all your circus now  
So there's never reason for your doubt  
The same is true and held for all I hope, at least for me  
So suddenly they found another out  
It's up to someone else to drag my ass up on the street  
We've all recovered though still to stand  
With no excuses for us to tell  
So please allow some time to pass  
We've peeled our spirits into a hole  
With no provisions left to share  
Yet still our sleeves are weighted down  
You wouldn't even believe your eyes, it's all your circus now  
You couldn't even believe your eyes, it's all your circus now  
You wouldn't even believe your eyes, it's all your circus now  
You couldn't even believe your eyes, it's all your circus now  
You wouldn't even believe your eyes, it's all your circus now  
You couldn't even believe your eyes, it's all your circus now  
You wouldn't even believe your eyes, it's all your circus now  
You couldn't even believe your eyes, it's all your circus now
