

Free

Gavin DeGraw

I'm a poor, I'm a rich
I'm a mountain and a ditch
I'm a dagger and a shield
I'm impatient, I'm a yield And I wanna be free, wind in my hair
Salt on my skin, sun in the air
I have to feel love holding on me
I'll give you everything that you would ever need I'm the fight and the dance
I am heartbreak and romance
The feather and the stone
I feel crowded and alone And I wanna be free, wind in my hair
Salt on my skin, sun in the air
I have to feel love holding on me
I'll give you everything that you would ever need And every once in a while I wanna sit back and enjoy the view
I'm feeling my senses
But woman my life has been surrounded by fences
But I found some that I could see through, I could see through And I wanna be free, wind in my hair
Salt on my skin, sun in the air
I have to feel love holding on me
I'll give you everything that you would ever need
Everything that you would ever need
Everything that you would ever need
