

Yesterday's Gone Forever

Little Texas

For all of my good intentions
Heartfelt every one
I've left so much love unspoken
So much of life I've left undone I could've made a difference
I just never made the time
Now yesterday's gone forever
And today ain't far behind Should've taken that job in Dallas
Or the one in San Antone
Should've left that girl in the city
And married the one back home I'd love to run back through the years
To tell her I was blind
But yesterday's gone forever
And today ain't far behind Let go, I've got to let it go
Wishing wouldn't change it anyhow
I know, I've got to let 'em know
All I can ever hope to change is here and now So when I wake up tomorrow morning
Gonna finally make the time
Tell some people how much I love 'em
And that I've made up my mind To make the most of every moment
Really live while I'm alive
'Cause yesterday's gone forever
And today ain't far behind
Yesterday's gone forever
And today ain't far behind
