

Possessed To Skate

Suicidal Tendencies

Let's skate Seemed like such an innocent toy
He was the all American boy
Got a skate at eight years old
Now the story can be told Beware, he's possessed to skate Skating takes him up in height
He's a pilot on a modern flight
See him flying through the air
If he don't land then he don't care 'Cause he rips when he skates
'Cause he never hesitates
He's the wizard on the wheels
Like a modern gladiator, ain't got no fears
So skate He shoots the pool like a launching pad
If it ain't insane then you can't get rad
Skating is all that's on his mind
He's skating radical all the time 'Cause he rips when he skates
'Cause he never hesitates
He's the wizard on the wheels
Like a modern gladiator, ain't got no fears
So skate Beware, he is possessed to skate
Possessed to skate Looks like a magic carpet ride
Six foot aerials, inverts backside
Optical illusion it must be
He redefines insanity 'Cause he rips when he skates
'Cause he never hesitates
He's the wizard on the wheels
Like a modern gladiator, ain't got no fears
So skate Doesn't understand why you'd wanna walk
Ain't got time to sit and talk
Used to be just like you and me
But now he's an outcast of society So beware, he's possessed to skate Possessed to skate, possessed to skate
Possessed to skate, possessed to skate
Possessed to skate, possessed to skate
Possessed to skate
