

Some Other Day

Flick

I was wondering if you were still awake
And I, I called you up, got scared and hung up
I, I'm not sure if I can understand the pain
That held you back, that held you backTake me away, I feel okay
Come back some other daySmile, if only for a little while, please smile
From the start you've played the part, your smile
I gave you the heart you're tearing apart
Your smile took me in but it's no friendTake me away, I feel okay
Come back some other day
Take me away, I feel okay
Come back some other dayBut can't you see you're taking it out
You're taking it out on meI was wondering if you were still awake
And I, I wasn't the one who held you backTake me away, I feel okay
Come back some other day
Take me away, I feel okay
Don't have a mind to stayTake me away, I feel okay
Come back some other day
Take me away, I feel okay
Come back some other, other
