Terrorville

Blowsight

I love the hate you give to me
It gives me tons of energy
I don't how to feel alive
No more words just see me drive in this direction
Didn't you know? I see myself in you.And when you know that you can't deny it
You see that light
And when you know that you've been walking around
You pick another fight
And you sleep out your meaning of this life
and stay inside
Would you feel a lot better if I
Gave you a choice and you decided to die?Destination Terrorville
You can't accept it, can't sit still
Butterflies will show the way
No more anger, no more pills in this direction
Didn't you know? I see myself in you.Pity you - I need another sabotage
Pity you - I need another sabotage
Pity you - I need another sabotage
Come on - I need another sabotageAnd when you know that you can't deny it
You see that light
And when you know that you've been walking around
You pick another fight
And you sleep out your meaning of this life
and stay inside
Would you feel a lot better if I
Gave you a choice and you decided to die?Don't step aside for
This time it all comes backAnd when you know that you can't deny it
You see that light
And when you know that you've been walking around
You pick another fight
And you sleep out your meaning of this life
and stay inside
Would you feel a lot better if I -
Gave you a choice and you decided to die?
