

Present Arms

UB40

Present arms You got no job, you got no pay
Join the military, sign today
They'll take you off to fight on foreign shores Be your mother's pride and joy
Her armed and dangerous golden boy
They're payin' to protect while isn't you Be your mother's pride and joy
Her armed and dangerous golden boy
A uniformed hero shows no fear The khaki ranks of flesh and steel
Learning how to smile and kill
They'll teach you to ignore the screams and tears You'll be your mother's pride and joy
Her armed and dangerous golden boy
A uniformed hero shows no fear The khaki ranks of flesh and steel
Learning how to smile and kill
They'll teach you to ignore the screams and tears
