

# No Angel

Beyoncé©

[Verse 1:]

Baby put your arms around me  
Tell me I'm the problem  
Know I'm not the girl you thought you knew and that you wanted  
Underneath the pretty face is something complicated  
I come with a side of trouble  
But I know that's why you're staying

[Hook:]

Because  
You're  
No  
Angel  
Either, baby  
Cause you're  
No  
Angel  
Either, baby  
Cause you're  
No  
Angel  
Either, baby  
Cause you're  
No  
Angel  
Either, baby

[Verse 2:]

No I'm not an angel either, but at least I'm trying  
I know I drive you crazy, but would you rather that I be a machine  
Who doesn't notice when you late or when you're lying  
I love you even more than who I thought you were before

[Hook]

[Bridge:]

Tell me do you want to ride  
Tell me do you want to ride  
Ride around, ride around  
Ride around

You ride around in that H-town  
If there's candles near your bed, no need for a spell  
Stop acting so scared, just do what I tell  
First go through my legs, go back on your head  
And whatever you want, yeah baby I'll bet it comes true

[Verse 1]

[Hook]
