When Two Worlds Collide

Blaze

My telescope looks out
Into the stars tonight
A little speck of light
Seems twice the size tonight
The calculations are so fine
Can it be growing all the time?Now I can't believe it's true
And I don't know what to do
For the hundredth time
I check the declinationNow the fear starts to grow
Even my computer shows
There are no errors in the calculationsNow it's happened take no other view
Collusion course, you must believe it's true
Now there's nothing left that we can doWhen two worlds collide
The anger and the pain
Of all those who remain
Two Worlds collide
Who will be left alive
No place to hideWhen two worlds collide
The anger, the pain
Of those who remain
When Two Worlds collide
So who will survive
There's no place to hide
When two worlds collideNow it's happened take no other view
Collusion course, you must believe it's true
Now there's nothing left that we can doWhen two worlds collide
The anger,the pain
Of all those who remain
Two Worlds collide
Who will be left alive
No place to hide
There's no place to hide
When two worlds collide
