

Better Than Sex

Halifax

In this bottle, I'm all dressed up for you.
In red, my intensions aren't so good.
It may take one miricle, but if you have more I'm sure we could use them.
So why do we (why do we), we touch like lovers but live like enemies.Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.It's must run through your veins,
The tensions getting stronger now with the pain.
You can have your miracles,
But I won't give in so your royalty means nothing to me.
So why do we (why do we), we touch like lovers but live like enemies.Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.
Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.Lets sleep tonight on a bed of nails,
So that every other night doesn't seem so painful after all
(after all)
Lets sleep tonight, on a bed of nails,
So that every other night doesn't seem so painful after all
(after all)
After all!Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.
Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.
Fix me fix me (You're the cure for us)
I want them stronger (they'll ease the pain)
I wanna be loved by you,
I wanna be there right next to you.
