Garden

Lost in the Trees

The peace our music brings
The song is our garden
And while we sing well grow
Unlike your killing song
Cause out your mouth come weeds
And my hallowing will turn the forest grey
Its so peaceful here
Its where I think Ill stay
And as you walk away
I hear you sing ooooh
Youre on your ownYou kill the peace
Our garden brings
Our sorrowThe birds are hunting
A woman and her paintings
And they pick on her chest
But she keeps breathing
I love her more than words
And now that our song
Can keep the birds away
Its so peaceful here
Its where I think Ill stay
And as you walk away
I hear you sing ooooh
Youre on your ownYou kill the peace
Our garden brings
Our sorrowYou burned down my
Childhood home
Our life is short
Ooo ooo ooo ooo oo ooYou breathe the peace
Our garden brings
Arent we grown?
